Profile

Dynamic Full-Stack Web Developer with over a year of hands-on experience crafting robust web applications and leading agile development teams. Proficient in designing and implementing scalable solutions that elevate user experience and drive business growth. Skilled in leveraging a diverse technology stack to deliver innovative, high-performance software products. Passionate about staying updated with emerging web technologies and committed to delivering excellence through clean, efficient code and effective collaboration.

Skills

- **Languages:** Javascript, Typescript, Dart, C++
- **Frontend Technologies:** React js, Next js, Flutter, Tailwindcss, Redux toolkit, Jotai, Zustand, React query, HTML5, CSS3
- **Backend Technologies:** Node js, Express, Hono, Socket.io, Nest js, Cloudflare workers, MongoDB ,PostgresQL, Prisma Orm, Drizzle Orm
- **Tools:** Linux, Git, Github, Figma, Docker
- **Testing:** Playwright, Vitest

Projects

- Flutter, Play Store & App Store** *NIC Mobile App* **Remote** 01/2025 - 06/2025
- Built a cross-platform educational app for iOS and Android using Flutter.
 - Published the app on both Google Play Store and Apple App Store.
 - Implemented real-time feedback and mistake tracking for user communication.
 - Developed personalized improvement insights and analytics dashboard.
- Upwork** *Create Meme Maker* **Remote** 11/2024 - 01/2025
- Developed a meme creation tool with advanced image editing and export features.
 - Delivered a user-friendly interface and robust functionality, earning top client ratings.
- Upwork** *Web-Based Meme Photo Editor Developer* **Remote** 10/2024 - 11/2024
- Created a web-based photo editor for meme generation.
 - Integrated advanced image manipulation and export features.
- Built with Next.js and Neon DB serverless driver** *Online SQL Playground* 01/2024 - 02/2024
- Developed an online SQL playground allowing users to execute SQL queries and visualize results in in real-time.
 - Utilized Next.js for frontend development and Neon DB serverless driver for serverless database interaction.
- Built with Next.js and Stream SDK** *Vidmeet Video Conferencing App* 02/2024 - 03/2024
- Created a video conferencing application similar to Zoom, allowing users to host and join video meetings.
 - Implemented features like real-time video streaming, chat, and screen sharing using Next.js and Stream SDK.
- Made with Bun, hono and Next.js** *FullStack Twitter clone App (Present)* 05/2024 - 08/2024
- Developing a fullstack twitter clone using nextjs, bun and hono.
 - Building backend services with Bun and hono and frontend interface with Next.js, enabling seamless integration and efficient data exchange.
 - Uses postgresQL as a database and redis as a caching layer.
- Made with C++ and Azure Cognitive Speech API** *Speech Analysis Command Line App* 01/2023-02/2023
- Developed a command-line application for speech analysis using C++.
 - Integrated Azure Cognitive Speech API to perform speech recognition and analysis tasks.
 - Implemented features such as speech-to-text conversion, sentiment analysis, and keyword extraction.

Education

Undergraduate *Tribhuvan University*

Kathmandu, Nepal 2022-2026

Relevant Courses: C& C++, Object oriented programming, Database management system, Networking, Operating System, Computer organization and architecture , Microprocessor, Data structures and algorithms.

Highschool *Morgan Int'l College*

Kathmandu, Nepal 2019-2021

Relevant Courses: Software and Hardware, Data Visualization, Business Intelligence, Digital Marketing, Time Series Analysis & Forecasting.
